

## Step 1 Installation

Install the **Pulse Secure** APP: download and install the app by tapping [here](#), or search it from the APP STORE.

## Step 3 Connect & Sign In

Go to **Connection** (see picture below) and tap **Connect**, and then enter your NDHU gmail account/password, and tap **Sign In**.

The setting must be configured upon its first launch. To get started using the **SSLVPN** service, please refer to Step 3.

**ENJOY!**

## Step 2 Set Up

(1) Open **Pulse Secure**, enter <https://ndhu.twaren.net> in the field and tap **Submit**.

(2) When **Connection Details** pop up (see picture left), select **Save**.

(3) You will see **Connection** box (see picture below), and tap on the 3 little dots (in the red circle).

(4) When it goes back to **Connection Details**, enter the following information:

<b>Connection Name</b>	ndhu
<b>URL</b>	<a href="https://ndhu.twaren.net">https://ndhu.twaren.net</a>
<b>User</b>	<a href="mailto:xxx@ndhu.edu.tw">xxx@ndhu.edu.tw</a> (Enter the 「full」 school mail account)
<b>Verification</b>	Mail password

(5) Select **Save**.
